Mrs. Buffington Opens Studio On Monday, Sept. 18

Fall Work in Piano Starts At Local Artist's Home Next Week

The 1933-34 season for piano study is here now, and many who have been deprived of musical advantages these last two years are making inquiries and planning to study music. Not only are the very young beginning piano study, but older students and adults, particularly those who find more leisure time on their hands, and perhaps, deprived of musical opportunities in their youth, want to study piano now. The desire for good music and the opportunity to study good music is more and more coming to the front. The time is coming shortly when parents will be ashamed to have their children musically illiterate while those around them are making progress in one of the greatest arts.

Continuing a successful summer season, Kathryn F. Buffington announces particularly interesting plans for fall and winter piano study. One new feature will be a series of monthly recitals, thus giving students the frequent opportunity of playing before a group. At these recitals all awards and honors will be given out, so the parents and students will know what advance has been made from month to month.

Mrs. Buffington is a graduate of Washington State College, with a B. A. degree in music. Since 1929 she has been accredited with the California state board of education, and high school students studying piano with her receive high school credit. The studio is modern in every respect—a well-tuned Steinway Grand piano, a Magic Board, interesting bulletin boards for the young and advanced pupil, on which appear items of musical interest, etc. With the study of piano is combined ear training, harmony, music appreciation and music history so that the student has a well-rounded training. Mrs. Buffington grades her students carefully so that those planning to major in music in college or university will be able to meet the requirements of the music department.

Mrs. Buffington is also a pupil of Richard Buhlig, internationally known pianist, and for the last year has been a member of the Richard Buhlig Master Class in Los Angeles.

ATTEND ART FESTIVAL Mr. and Mrs. James Crumrine, 2297 Moneta street, Keystone, visited over the week-end at Laguna Beach. While there they attended the Laguna art festival.
